

CANNOT ENFORCE THE LAW.

A cabinet meeting was held at Washington to discuss the Chinese question. The conclusion arrived at according to the dispatches was that the law cannot be enforced as there are not sufficient funds to carry out its provisions. Of the amount appropriated by the Geary act to deport Chinese, only \$36,000 is expended, and that would not pay the expense of arresting and shipping more than a few thousand of them.

The question of excluding coolies has been agitated on the Pacific coast for over thirty years. It has been discussed in political conventions, in the newspapers and on the stump. No candidate could reasonably hope to be elected unless the platform on which he was nominated emphatically declared against Chinese immigration.

So long as the opposition to Chinese did not extend east of the Rocky mountains and was confined to the working classes, congress took no action in the matter, but when the Chinese commenced manufacturing many articles on their own account, and established colonies in the principal eastern cities, after the completion of the transcontinental railroads, an act restricting Chinese immigration was passed.

This was supplemented by an exclusion act which contained so many loopholes through which Chinese could crawl, that it was virtually a dead letter on the statutes. To remedy the defects in this exclusion act the Geary bill was introduced by a California congressman. It went into effect May 3, at which time every Chinese who had not complied with its provisions was liable to arrest and to be shipped out of the country.

Contrary to the general custom, and to the common belief that it is the duty of the chief executive to enforce the law and let the courts decide upon its constitutionality, the administration modified the requirements of the act at first, and subsequently suspended its provisions altogether. Now the supreme court has decided the act constitutional, and yet the administration concludes to make no attempt to enforce its provisions.

This gives the Six Companies, whose mandates have more force with the coolies they smuggle into the United States than the laws of the country, a prestige when the enforcement of the act would deprive them of, as they advised the Chinese to disregard the act. The available \$36,000 should be expended in carrying out the law, by shipping a few thousands of the Chinese, which are under the special care of the Six Companies in San Francisco out of the country, or at least compelling those who may claim that they had no opportunity to register, to comply with the law under penalty of being deported.

There are many Chinese employed in the interior as cooks and laundrymen, whose services could not be dispensed with at a moment's notice, without great inconvenience to their employers, but they should be made to respect the law by giving them opportunity to register, under penalty of being arrested if they did not avail themselves of it. To-day, it may reasonably be assumed that nine-tenths if not all the Chinese would apply for registration upon the pretext that they did not have opportunity to do so before the 31st of May, if informal revenue collectors were authorized to visit the several localities where they are employed and give them certificates. This would be better than to wholly suspend the operation of the act as it would afford means of excluding those now in the United States from those who are certain to be smuggled in during the next season of the act.

THE FREE COINAGE DISCUSSION.

The Denver News, one of the best newspapers and ablest advocates of silver recoinization in the United States, says the free coinage discussion within Democratic lines is assuming a red hot aspect, and the line between bimetalists and monometallists is being rapidly drawn. The St. Louis Republic, the Cleveland Plaindealer and the Indianapolis Sentinel are all ranging themselves on the side of silver and free coinage, and do not hesitate to criticize the golding tendencies of Mr. Carlisle and President Cleveland. The Corn Journal, being the personal organ of the secretary of the treasury, is of course in favor of carrying out the tariff pledges of the Democratic platform, and of violating those which relate to gold and silver. In approving the policy which has ruled the treasury since March 4th—the policy of Harrison and Foster adopted by Cleveland and Carlisle—it runs squarely in the face of the Democratic platform as it urged the continuance of the McKinley tariff.

The News notes the growth of the currency discussion as one which indicates the growth of true conservative sentiment. There can be no intelligent consideration of the subject without arriving at a position favorable to the immediate restoration of silver to its full use as a money metal. The surprise in which silver was dropped from the coinage, the evident conspiracy to make gold the sole money of ultimate redemption, the general fall in all prices as compared with gold, showing its enhanced purchasing power, the manner in which silver and cotton and other staples have maintained their relative values, the certain depression and disaster certain to follow the adoption of the single standard, as illustrated by recent failures in all parts of the world, but more especially in Australia and the United States—these are the facts that will be brought prominently to the public mind, and impress the justice as well as the necessity of the demand for a return to the free bimetallic coinage that existed in the United States prior to 1873.

Let the discussion go on. It will arouse men's minds to the rapacity of the money power, and the subservience of the administration to its behests. Out of it is certain to come victory for the white metal.

A Mother Poisons Her 9-Year-Old Son.

THE GEARY ACT AGAIN.

The Several Church Organizations Endeavoring to Have the President Refrain From Enforcing the Law.

Special to the JOURNAL.]

NEW YORK, May 18.—The Geary exclusion act, which always has been fought by the churches and missionary societies, has given the home officials no little concern. The Presbyterian board of missionaries at a meeting yesterday in addition to sending a cablegram, ordered letters written to the four missions in that country, in which was an injunction to be cautious. Conservative action was enlarged on and adding, "It seems to us desirable, while matters are in suspense, that all our missionaries should be in a situation where prompt communication shall be possible and that visits to the interior should not be undertaken unless proper precautions are taken. I am authorized to say that Mr. Dulles is about to send extra funds to each mission to be available when needed. The chief danger apprehended is the uprising, the result of false reports scattered among the people, who may take action before the government can interfere."

The Methodist foreign missionary society decided to make a final appeal to the president against the enforcement of the law. The appeal as formulated, says "We earnestly beseech the president to use all the means within his power to meet the just wishes of the Chinese government, and if it yet be possible to secure through diplomatic action such an agreement between the two countries as will secure peace and harmony."

The following was also issued for distribution: "In this time of peril to our missionary interests in China, and of dishonor to the fair name of our country, because of unrighteous legislation, we deem it of the utmost importance that the whole church should look to God for his divine guidance and help. We therefore recommend that Sunday, May 25, be observed as a day of special prayer throughout the country that our government may be led to just and right action in this emergency and that such solution of the pending question may be reached as shall save the missionary interest in China from disaster and secure just treatment to the Chinese in this country."

Special to the JOURNAL.]

WASHINGTON, May 18.—An authentic statement is obtained as to the interview between Secretary Gresham and the Chinese minister at the state department Wednesday last. The interview was entirely devoid in tone and feature of any suggestion of sensationalism. Nothing whatever was said by the minister concerning any possibility that the Chinese legation in Washington would be withdrawn as a result of the enforcement of the law and it can be stated on authority of Secretary Gresham that he has not received any intimation from any source that any such proceedings was contemplated.

During the interview the Chinese minister assured Secretary Gresham that he believed the Chinese government would not resort to any retaliatory measures, and that there would be nothing done by this government that would disturb the present friendly relations between the United States and China. The minister is of the opinion that no trouble would result from the law. The interview was pleasant throughout and lasted about twenty minutes.

The League of Press Clubs.

Special to the JOURNAL.]

ST. PAUL, May 18.—The international convention of the league of press clubs was called to order at 10 o'clock by President DeYoung, and after a brief session, during which various committees were appointed, an adjournment was taken until to-morrow. This afternoon the visitors drove about the city and to-night a literary program in Ford's hall was followed by a general reception at the commercial club rooms.

Cole's Strong Man's Last Performance.

By Associated Press.]

SARANAC LAKE, N. Y., May 18.—One of the feats performed by Blondin, the strong man with Cole's circus, was the holding together of two strong horses pulling in opposite directions. Last night a pair, unaccustomed to the performance, were tried, and they reared and plunged. Blondin, in endeavoring to hold them, burst a blood vessel, and died soon after.

Weather Forecast.

SAN FRANCISCO, May 17.—The forecast for Nevada is fair weather and warmer.

Presbyterian General Assembly.

Special to the JOURNAL.]

WASHINGTON, May 18.—The Presbyterian general assembly met here today in the 150th annual session. Moderator Young delivered his annual address, in which he asserted the infallibility of the bible being the very word of God from Genesis to Revelation.

Dr. Willis Craig of McCormick university, Chicago, was elected moderator.

J. T. Foster of Newark, N. J., presented a resolution, which was unanimously adopted, protesting against the opening of the exposition at Chicago on the Lord's day, and appealing to the national commissioners to prevent the opening of the exposition and invoking the cooperation of the national executive in the enforcement of all laws designed or calculated to secure that end.

The assembly then adjourned until to-morrow.

This evening the ordinance of the Lord's supper was administered to the commissioners and accompanying congregation, which taxed the capacity of the church.

An Army Officer Dies in Disgrace.

Special to the JOURNAL.]

NEW YORK, May 18.—David C. Houston, lieutenant-colonel for the engineers of the United States army, died this morning at St. Vincent's hospital of jaundice. He was 58 years of age and a native of New York. Two weeks ago the colonel, accompanied by a woman known as Mrs. Minnie Porter, went to the Everett house and they were assigned separate rooms. Mrs. Porter passed as his niece. The couple did much drinking and the hotel people refused Mrs. Porter liquor after learning the amount she was consuming. Friday night some of Colonel Houston's friends called at the hotel and found the army officer in such a condition that they at once sent him to St. Vincent's hospital. The woman kept up the debauch, procuring liquors outside the hotel. Sunday her condition became such that the house physician had her removed to Bellevue hospital, where she was placed in the alcoholic ward. Before leaving the hotel the unfortunate woman told the housekeeper that her home was in Tennessee, and her husband, son and daughter were living there. At the hospital to-day a physician said the woman could not live.

The New Cruiser New York.

Special to the JOURNAL.]

BOSTON, May 18.—The cruiser New York reached Boston this morning after a good run from the Delaware breakwater. The average rate which the vessel went may be safely put down as 19 knots and there is every reason to hope the New York will exceed the contract speed by at least one knot, thus winning for the builders a premium of \$200,000 and giving to the United States the fastest armored cruiser in the world. Monday morning early the New York will get under way and steam up to the starting point off Cape Ann for the great race. The contract with the government calls for a speed of twenty knots per hour, \$50,000 being paid for every quarter knot in excess and a like amount forfeited for every quarter of a knot below.

She Poisoned Her Son.

Special to the JOURNAL.]

LANSING, Mich., May 18.—Last night the body of the 9-year-old son of Mrs. Frank Harre, who died Monday night, disappeared from the house where it lay. About a year ago the husband of Mrs. Harre was killed by a log rolling upon him.

The physician requested a post mortem examination of the son yesterday, but the mother refused. This morning the body of the son was discovered at the bottom of a deep well in the farm. The mother later confessed to having poisoned her son to prevent his growing up a thief. She was arrested. The neighbors think she is insane.

A Mighty Flood.

Special to the JOURNAL.]

ALEXANDER, Minn., May 18.—The dam holding water from Lakes Ida and Millona have given way and a mighty flood is raging down the Long Prairie river. All bridges west of town are washed out or stayed with ropes and impassable. Much damage may result.

Dr. Porter extracts teeth without pain. Office, Sunderland building, Virginia street.

Mrs. C. W. Friend passed through to Carson yesterday morning on her return from a visit to California.

L. H. Taylor, the surveyor, has returned from Humboldt county, where he had been on professional business.

Mr. and Mrs. Warren Noteware of Carson passed through yesterday homeward bound from San Francisco.

Wilson & Levers, state agents for the Columbia bicycle, received three ladies' wheels yesterday. They were of latest model.

The annual convention of the grand lodge of Knights of Pythias will be held at Virginia city on the 9th of next month.

Chronic constipation is a troublesome and dangerous disorder. The surest and safest remedy is Ayer's cathartic pills.

A. O. Hofer and mother were among the passengers from Carson last evening. They intend to make an extended visit in the East.

T. K. Hymers has a force of men at work clearing away the debris left by the late fire and preparing a place for a new brick building.

W. J. Douglass has been appointed superintendent of the Mt. Diablo mill in place of Mr. Fleming, resigned.—Hawthorne Bulletin.

John Wagner and wife of Carson arrived on last evening's V. & T., and departed on the eastbound train en route to the world's fair.

A. C. Helms, agent for the Victor bicycles, received a latest improved ladies' wheel yesterday. The wheel was ordered for Mrs. W. A. Moore.

Close observers say that more substantial buildings will be erected in Reno this summer than in any previous year in the history of the town.

With but little care and no trouble, the beard and mustache can be kept a uniform brown or black color by using Buckingham's dye for the whiskers.

It is estimated that the value of all bicycles in Reno is about \$12,500. It is understood the assessor intends assessing the wheels for taxable purposes.

The Times-Review says the widow of John Hull of Hughes Creek, Idaho, has been arrested. She is charged with killing her husband by administering arsenic.

Warren Noteware, wife and children passed through to Carson from San Francisco yesterday morning. Mr. Noteware reports his father as rapidly improving.

An investigation by the justice of the peace showed that the Indian who was found hanging by the neck in a cabin near St. Clair, Churchill county, committed suicide.

The Republican of Wednesday says Foster is indicted. The wind blew a gale Tuesday and began raining in the evening and Wednesday morning there were four inches of snow on the ground.

The Democratic county central committee has endorsed Horace Raynor for postmaster at Reno. There were several candidates for the position, straight and mixed, but Mr. Raynor was the choice of the majority.

The Dispatch says Architect Curtis of Reno is in Wadsworth with a force of men, all at work on the new Pike & Wightman building, and in consequence thereof main street presents a very lively appearance at that point.

In the case of C. E. Bray, commissioner of Ormsby county, vs. Ormsby county, for \$30, claimed to be due for work on county roads, the justice at Carson decided in favor of plaintiff. The county will appeal to the district court.

J. P. Meder, J. T. Jones, L. A. Frisbie, L. L. Elrod, J. D. Torreyson, T. W. Dempsey, C. E. Bray and Jno. Doane were elected by Carson lodge, No. 4, K. of P., as representatives to the grand lodge, which convenes in Virginia city on June 9th.

J. W. Puett of Carlin, who was injured there a week ago, is reported by the Elko Independent as being able to get about with the aid of a cane. Mr. Puett is the manager of Sisson & Crocker's business in Nevada and is well and favorably known along the Central Pacific railroad.

SUGAR BEET CULTURE.

The Experiment Station Will Make Analysis Free of Charge.

In the season of 1893 Richard Gird of Chino, California, expects to manufacture 16,000,000 pounds of sugar from beets; not for exercise alone, but for cash returns.

There is reason for the belief that capital invested in sugar beet culture and manufacture of sugar in Nevada would yield a fair revenue. The Experiment Station, situated at Reno, is prepared to analyze sugar beets or other products of interest to farmers and the public at large free of charge. This work has been performed for several years. In 1891 over 100 pounds of sugar beet seed was sent out. In 1892 635 pounds of beet seed was delivered to farmers in every county in the state. The farmers returned samples of beets, with answers to questions in regard to the date of seeding, culture numbers of irrigations and other questions to the number of seventeen.

Nevada grown beets during the two years past have shown, according to chemical analysis, from 10 to over 23 per cent sugar. Bulletins 12 and 13 from the station give suggestions on climate, varieties of beets, soil preparations, quantity of seed per acre and analysis of over 400 samples of beets grown by the farmers and at the station, with some notes on sugar plants. Circulars containing much information relative to sugar beet culture are furnished farmers on application at the station.

Townsend Witticisms.

The following items are taken from the *Homer Index* of the 13th instant: The world's fair seems to be all right. It is the railroad fare that is bothering people.

He who prays to be a better man should not forget to assist the Lord in the undertaking.

On Wednesday the mail was so late that it didn't get here at all. All hands looked for it so eagerly that they got corns on their eyes.

The runt of the litter squeals the loudest. The leanest hog gets to the swill first and eats most. The manner a man the more concealed he is.

What kind of a financial policy is it which buys silver bullion to store away in order that bonds may be issued, upon which the American people must pay interest?

Foster says we will have a severe and dangerous storm in a few days. Though we have no faith in his prognostications, his storms arrive more regularly than the mail does.

Mrs. J. W. Mackay has gone east again. After all her gush about "dear old Nevada," she hardly deigned to look out of her car window in the direction of the Comstock, to which she is indebted for every splinter she possesses.

The large number of empty whisky barrels found, shows what a vast quantity of the pernicious beverage has been polished off in this little camp during the winter. It makes us shudder to think it is possible we did not get our share of it.

The United States, the greatest mineral-producing country in the world, with a population of 65,000,000, has a circulating medium of \$25 38 per capita. France, with 30,000,000 inhabitants and producing a limited amount of mineral, has \$41 07 per capita.

The dignity of the law is interesting to contemplate. The men made the laws, and then they represented "Justice" by a woman with a bandage about her eyes. The analogy is absolutely ghastly in its correctness. They have hoisted this travesty around on monuments and court-houses about long enough. It's time the women chopped her down. She has been "going blind" long enough.

The Conference.

The following will be the order of services for to-day (Friday) at Trinity church:

9 A. M.—Conference with the clergy. 10:30 A. M.—Morning prayer and celebration of the Holy Communion. During this service Bishop Leonard will institute Charles Lee Fitchett rector of Trinity parish. The vestry and congregation are expected to attend.

2 P. M.—Subject of morning conference continued.

7 P. M.—Evening prayer and the "order of confirmation."

8:30 P. M.—Reception for the Bishop and clergy at the residence of Mr. William Pinniger by the Woman's Guild.

Not Built that Way.

An editor who was asked if he had seen a baldheaded woman, thus replied: "No we never did. Why should we? Nor did we ever see a woman waltzing around town in her shirt sleeves with a cigar between her teeth, stopping at every saloon she saw. We never saw a woman go fishing anywhere with a bottle in her pocket, sit on the damp ground all day and go home drunk at night. Neither have we seen a woman yank off her coat, spit on her hands and say she could whip any man in town. No, bless her, she ain't built that way."

Graduated at the University of California.

George H. Foulks, son of Hon. J. P. Foulks of Verdi, graduated from the University of California Wednesday, the degree of Bachelor of Letters being conferred upon him. Mr. Foulks not only made a first-class record as a student but has achieved considerable notoriety as an athlete as well. He has the Pacific coast record for a mile walk; was commander of one of the cadet battalions, and in addition was a member of the university's crack football eleven.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

BREVITIES.

Four banks succumbed yesterday, one at Evanston, Illinois, another at Lincoln, Nebraska, and two at Grunow, Georgia, and yet there are those who, for the sake of office, uphold the single-standard, Wall-street policy of the administration.

The Chinese who obeyed the instructions of the Six Companies and refused to register are despondent and regret that they did not comply with the law, especially as it would not have cost them a cent to have done so after the "photograph" clause was modified.

The Nevada-California-Oregon railway company has issued a new time card which is to take effect next Monday, May 22. The only change is in the time of departure which will be at 8:30 A. M. every morning except Sundays, instead of 8:15 A. M. as at present.

The *Examiner* has selected twenty schoolchildren to be sent to the world's fair in the *Examiner's* special car. There are seven boys and thirteen girls. One of the girls, Annie Emma Hutchins, is a native of Winnemucca, Nevada, and a daughter of Dr. Fred Hutchins.

The colored pug Turner, who recently had a glove contest in Carson with "Soldier" Walker, was arrested in Sacramento this week for grand larceny. He stole a watch worth \$100 from a barber, and when cornered admitted the theft and showed the officer where he had hid the time.—*Tribune*.

The funeral of Mrs. Ella White which took place from the Palace hotel yesterday afternoon was largely attended. The services were conducted by Rev. W. B. Pope of the Baptist church. The interment was in the Odd Fellows cemetery, a large concourse of citizens following the body to the grave.

The Carson News, which has entered upon its second year, is proud of its types, whose general behavior cannot be excelled, and claims to have the cleanest office in Carson. The *News* is conducted by young a lady who says she has been rash enough to wash the windows once during the year and to give the office towel a periodical bath.

The *Republican* says the new steel bridge which spans the river at Truckee is completed and is being used. It is a handsome structure, and adds much to the appearance of things down that way. In addition to the roadway it has a sidewalk for foot passengers four feet wide. It is all nicely finished and reflects credit upon the builders.

Mrs. M. J. Lewis, who arrived here a few days ago from Capitola, California, on a visit to her son, Frank R. Lewis, is one of the survivors of the Donner party, who crossed the plains in 1848, and whose suffering while snow-bound in the Sierra Nevada near Donner lake is so graphically described in the history of the Donner party by C. F. McGlashan of the *Truckee Republican*.

The Blue Laws.

The Blue Laws of Connecticut were so called because they were printed on blue-tinted paper.

These were some of them: "No one shall be a freeman or have a vote unless he is converted and a member of one of the churches allowed in the Dominion."

"No dissenter from the essential worship of this Dominion shall be allowed to give a vote for electing magistrates or any officer."

"No food or lodging shall be offered to a heretic."

"No one shall cross the river on the Sabbath but an authorized clergyman."

"No one shall travel, cook victuals, make beds, sweep houses, cut hair or shave on the Sabbath day."

"No one shall kiss his or her children on the Sabbath or feasting days."

"The Sabbath day shall begin at sunset Saturday."

"Whoever wears clothes trimmed with gold, silver or bone lace above one shilling a yard, shall be presented by the grand jurors and the selectmen shall tax the estate at £300."

"Whoever brings cards or dice into the Dominion shall be fined £5."

"No one shall eat mince pies, dance, play cards, or play any instrument of music except the drum, trumpet or jewsharp."

"No man shall court a maid in person or by letter without obtaining the consent of her parents; £5 penalty for the first offense, £10 for the second, and for the third, imprisonment during the pleasure of the court."

A full line of Perry & Co's seeds at W. Pinniger's drug store.

A STEAM MAN.

A Walking Machine Formed Like a Human Being.

The *Scientific American* calls attention to the "steam man." It is, in a few words, a steam machine formed like a man which walks; though what the special use of it, if not a mere toy, is not shown. It is the invention of Mr. George Moore of Canada, and is said to be powerful enough to pull ten ordinary persons in a wagon. The figure is made to resemble an armored knight. In moving it imitates the motion of the human body exactly, the action of hip, knee and ankle being most natural. The speed, however, is not more than four or five miles per hour. The boiler is in the body, and is heated by gasoline; the engine is just below the boiler and capable of 3,000 revolutions per minute. From the engine the exhaust pipe leads to the nose of the figure, whence the steam escapes when the machine is in motion. Through the head the smoke flue is carried, and the products of combustion escape from the top of the helmet. The steam gauge is placed on the side of the neck. The skirts of the armor open like doors, so as to give free access to the engine. The main body of the figure is made of heavy tin.

Emeralds Items.

The following items are culled from the *Walker Lake Bulletin*:

The C. & C. is the longest narrow gauge railroad in the United States—292 miles.

Last Sunday the Mt. Diablo made a shipment of six bars of bullion valued at \$6,456.

Hatton & Kenney are working on the old Mt. Cory mine, and it is said they are taking out some very rich ore.

A better quality of ore is now being taken from the Mt. Diablo mine, and it is likely the mine will not be shut down the first of the month, as has been reported.

George Woodruff, who has been working in the Central mine, was covered on last Saturday, and is in town for repairs. His back and head were badly cut, but he will be O. K. in a few days.

The angler is happy. Perch (or bass—deponent knoweth not which) are biting ravenously. Several large strings were caught during the past few days. The fish are larger than ever before caught in the lake, some weighing between three and four pounds.

A Growing Village.

A note from Lovelock to the *JOURNAL* gives an idea of the growth of that community in the last year. It says the school census marshal's report just completed shows that there are forty-five boys and forty-one girls between the ages of six and eighteen years. There are forty-four children under six years of age and nine between eighteen and twenty-one years, making a total of 189 under twenty-one years of age. This is nearly twice the number of children that were in the district a year ago.

Funeral Notice.

The funeral of Olive M. Park will take place from the residence of her uncle, J. H. Berger, Front street, between Sierra and West, at 2 o'clock this afternoon. Friends of the family and the public generally are invited to attend.

Chinese Expulsion Will Be Delayed.

WASHINGTON, May 18.—Present indications are pointing strongly to the assumption that a copy of the majority opinion of the supreme court will certainly be forwarded to the Chinese government through diplomatic channels before any extended system of hostile action under the law will be inaugurated. The probabilities seem to favor a prolonged status quo on the Chinese expulsion question.

Woman's Guild Reception.

The woman's guild of Trinity church will hold a reception for the bishop, visiting clergy and delegates Friday evening, May 19th, between the hours of 8:30 and 11 P. M., at the residence of Mr. Wm. Pinniger. All who are connected with the parish directly or indirectly are invited to attend.

E. C. BARCOCK, Secretary.

License Notice.

Notice is hereby given that the office of the city license collector, until further notice, will be at the office of T. V. Julien on Virginia street in Reno. H. P. BROWN, Ex-officio, City License Collector. May 16th.

A Leader.

Since its introduction, Electric Bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant, it is recognized as the best and purest medicine for all ailments of the Stomach, Liver or Kidneys. It will cure Sick Headache, Indigestion, Constipation, and drive Malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c per bottle. Sold by S. J. Hodgkinson.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Lung, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at S. J. Hodgkinson's drug store. Large size 50c and \$1.

A Century From Cabot to Lodge.

Henry Cabot Lodge is the 36th man who has been honored by the state of Massachusetts with a seat in the United States senate since congress was organized in 1789. It is an interesting coincidence, by the way, that the great grandfather of Mr. Lodge, George Cabot, was a United States senator from Massachusetts just a century ago, he having been elected in 1791 to serve until 1793. His grandson's term will expire in 1890, so that there will be three years in the two centuries when the great-grandfather and the great-grandson will have been wearing the same toga, with a century between them.—*Boston Herald*.

Return of an Eminent Botanist.

Professor C. S. Sargent, the eminent botanist and promoter of arboriculture, has returned from a trip to Japan. It is pleasant to know that he regards his exploration as a remarkably successful one. He traveled nearly all over the empire, made a very large herbarium and brought home a number of species of trees and shrubs, of which a considerable portion has never yet been brought into cultivation. Every lover of trees, plants and general gardening will extend cordial welcome to the professor on his safe return.—*Meehan's Monthly*.

Big Injuns Blew Out the Gas.

Muneco-maliqua, Sah-gah-chew and Oh-co-mah-shi are Indians who have been attending federal court and came near not living to return to White Earth and their tepees. They were putting up at the Globe hotel and blew the gas out when they lay down to sleep. They were almost asphyxiated when discovered and were revived after strenuous efforts by a physician.—*St. Paul Globe*.

Wooden Pavements In Canada.

Wooden block paving is proving a conspicuous failure in Montreal. The wooden block paving in front of the Langerin block in Ottawa has stood well, but it was a most exceptionally expensive paving of the kind. The Montreal experience confirms previous indications that our climate has little use for ordinary wooden paving.—*Ottawa Journal*.

THE KEELEY CURE.

AN INSTITUTION POSSESSING THE SOLE AND EXCLUSIVE RIGHT To Sell and Administer in the State of Nevada the

DOUBLE CHLORIDE

GOLD REMEDIES,
